

Electric Rates Change

The South Carolina Public Service Commission approved a decrease in electric rates effective for bills rendered on and after the first billing cycle of May 2010. This is due to a decrease in the fuel and variable environmental cost component of the Company's electric rates.

The approved Rate 6 and Rate 8 for residential service is provided. Rates for other classes of customers may be obtained by contacting your local SCE&G office or by visiting sceg.com.

Rate 8 Residential Service

Effective for bills rendered on and after the first billing cycle of May 2010.

Rate Per Month

	Summer (Billing Months June-September)	Winter (Billing Months October-May)
Basic Facilities Charge.....	\$8.00	\$8.00
Plus Energy Charge		
First 800 kWh@.....	\$.11001 per kWh	\$.11001 per kWh
Excess over 800 kWh@	\$.12108 per kWh	\$.10547 per kWh

Electric Rates Change

Energy Saver/Conservation Rate 6 is designed to reward residential customers who build or upgrade their homes to high efficiency standards, as prescribed by the Council of American Building Officials Model Energy Code. These standards are subject to change and affect ceilings, lighting, walls, floors, windows, doors, ducts, attic vents, water heaters, air conditioning, chimneys, and fireplaces.

Air conditioning standards may also be impacted by federal or state mandated energy codes. The most recent update for this requirement affects all homes permitted on or after January 23, 2006, which results in a current SEER rating of 14.5 or higher to qualify for service under Rate 6. This rating is subject to change as energy codes are updated or revised.

Please contact your local SCE&G office or visit sceg.com for more information and complete details on Rate 6. A Rate 6 application is also available online at sceg.com.

Rate 6 Residential Service

Energy Saver/Conservation Rate

*Effective for bills rendered on and after
the first billing cycle of May 2010.*
