

Re: Lake Management Construction Application

Dear Property Owner:

Enclosed is an application for your proposed activity at Lake Murray. This application can be used for the private residential activities listed below. Please complete the application form and the attached sketch sheet. If you are going to construct a dock or ramp, your measurements must be accurate.

It is important that you send us precise directions, along with a sketch map, a plat of your property with the location of the construction shown on it, and some form of landmark that lets us identify your property. The application must be completed, signed by the property owner and returned to the Lake Management Department with the appropriate fee. The Shoreline Management and Vegetative Protection Agreement must be signed, dated and returned with your application before your application can be processed.

An onsite inspection will be made to determine that your request is in compliance with Lake Management guidelines as shown in the enclosed brochure. Concluding the onsite inspection, you will receive in writing an approved or disapproved stamped copy of your application or dimension form. Along with the approved form for a dock application, you will be issued a construction permit that must be displayed at the work location. Failure to display the permit will make it invalid.

Upon receipt of written approval, you may start construction of the approved activity. If the proposed activity is not approved, a Lake Management representative will contact you by phone to discuss the application.

Another inspection will be made to review your construction work. Docks constructed according to application will be tagged with a metal decal. (DECAL MUST REMAIN VISIBLE AT ALL TIMES.) Due to the time lag in SCE&G making the final inspection, the construction permit must remain at the site and will be removed by SCE&G personnel.

If you have any questions, please contact the Lake Management Department at 803-217-9015.

PERMITTING FEE SCHEDULE

Dock	\$75.00	Dock Modification	\$50.00
Boat Ramp (Concrete)	\$75.00	Limited Brushing	\$50.00
